

# UANITA'S SECRET

# **PLAIN HISTORY**

**S**WIFT'S Specific is a simple vegetable compound, prepared from roots gathered freshly from the forest, and contains nothing of the mineral kingdom, or any poisonous substance, or any article at all which comes from the chemist's laboratory.

The formula of the remedy was obtained from the Creek Indians in Middle Georgia, by reliable white men, who had witnessed the wonderful cures made by that tribe of Indians, of blood diseases. Mr. Hugh L. Dennard, of Houston Co., Ga., began using Swift's Specific in 1829, and continued its use all of his life, and asserted that he had never known it to fail to cure any case of scrofula, blood taint or contagious blood poison. This testimony has been corroborated every day for years. The present Company was formed in 1879, and have since made known to the world the virtues of Swift's Specific, and to-day it is sold in every city, town and country store all over America, in Great Britain, and many other portions of the World. We have two valuable books on Blood Diseases, which we will mail free.

# STRICTLY BUSINESS.

*WHAT is the Swift Specific Company?  
Who compose the organization? Is it a  
clap-trap patent medicine humbug, gotten up to  
deceive and make money out of the people?  
These questions we think are answered by the  
officials and citizens of our city, state and country.*

## UANITA'S SECRET.

In the land of Amicola,  
Where the Chattahoochie mirrors  
Stars of Heaven in its waters,  
Dwelt the chieftain Unawanga.  
Sick was he, of cruel poison  
Burning in his veins like fire,  
And before his lodge he waited  
For the coming of the summons.

From the distance came his daughter—  
Uanita—knowing nothing  
Of her father's grievous ailing.  
As she walked she gathered blossoms,  
Roots and grasses of the wildwood—  
Halted at the Cimmeraga—  
“Pool of Darkness”—idly dreaming,  
One by one her gleanings dropping.

## BLOOD: HUMORS

*BOILS, pimples, blotches on the skin, eruptions, etc., evidence the fact that the blood is not in a good condition. These symptoms result from the effort of nature to throw off the impurities, in which she should be assisted by Swift's Specific. This will remedy the disturbance, and bring speedy and permanent relief by forcing out the poison, and will build up the system from the first dose*

## A SPRING TONIC

*NOTHING is equal to Swift's Specific to tone up the system, when the change comes from the full habit of Winter to the lighter diet of the warmer months. Send for our books on Blood and Skin Diseases.*

Scarcely had they touched the water,  
Ere the dingy surface lightened,  
Purged it seemed of all pollution  
Till the depths became as crystal,  
Snowy pebbles gleaming thro' them.  
Uanita saw and wondered,  
Raised her eyes unto Manitou  
Thankful for the secret taught her.

# •••SCROFULA•••

is a form of blood poison which descends from parent to child; sometimes it omits one generation to appear in the next. It is a taint which must be eradicated from the system before a cure can be made. Swift's Specific drives out the virus through pores of the skin, and thus relieves the blood of the poison. Mercury and Potash mixtures dry up the sores of Scrofula and other blood diseases, only to bottle up the poison in the system, which, of course, is certain to break out at some weak spot, as the throat, nasal organs and lungs.

Soon she came unto her father—  
Unawanga—sick with poison.  
Open were his arms to greet her,  
Blanched her lips as when she kissed him  
Learned she that his life was ebbing.  
Like a sunbeam thro' the darkness  
Came the thought to Uanita—  
“Sweet the lesson of Manitou,

That which purifies the waters,  
Cleanseth blood of Unawanga!"  
Like a deer to woodland sped she,  
Soon returned with roots and blossoms,  
Steeped them, and their blended juices  
Gave she to her father. Wonder!  
Purged was he of the poison,  
And he rose and blessed his daughter.

# CANCER

is a form of blood poison which is not understood by the medical profession as to its real nature and character, but it is evidently hereditary in its nature. It may accidentally develop itself without any predisposition or evidence of such existing poison. The knife or caustic salves have heretofore been the so-called remedies for it, but all honest practitioners will tell you that this treatment fails to cure, and only hastens fatal results. Thousands of cases of Epithelioma (skin) Cancers, and a great many cases of Scirrhus Cancers have been entirely cured by the use of Swift's Specific. It forces the poison out through the Cancer itself, and the pores of the skin.

Later unto Amicola,  
Came a pale faced preacher, teaching  
Peace and progress to the natives,  
Wooed and won he Uanita;  
She to nobler make his calling,  
Whispered to him nature's secret—  
Told him of the herbs so potent  
For the healing and the saving.

# MERCURIAL RHEUMATISM

is said to be the most torturing form of this disease. It is most frequently the result of mercurial treatment persisted in for the cure of diseases of the blood. The system becomes saturated and poisoned with this mineral, and develops itself in this form of Rheumatism. The only way to remove this mineral poison is to take Swift's Specific. It seems to cure the Rheumatism by removing the mercury. We have hundreds of testimonials of cures of this horribly painful disease in our books on blood and skin diseases, which we will mail free to any address.

Thus it was the Swift's Specific  
Brought unto the world its blessing ;  
Over land and over water  
Went the priest and Uanita ;  
Bringing to the people tidings  
Of relief from blood contagion--  
Of a salutary agent  
That would purge them of all poison.

# **CONSUMPTION.**

is a disease of the lungs, and sometimes of the bowels, and often the result of blood poison. Consumption is largely caused by the use of Mercury and Potash mixtures, which, when taken for blood poison, drive the virus back into the blood, and of course it attacks the weaker organs. A remedy which will cure ulcers and sores on the exterior surface of the body, will not fail to produce the same cure of ulcers on the internal organs. Swift's Specific will do this, but of course must be taken in time to prevent fatal results of eating ulcers. Hundreds of cases have been relieved in its early stages by the use of Swift's Specific.

And the decades since are teeming  
With the glowing testimonies  
Of the powers antidotal  
Blended in the "Swift's Specific."  
Scrof'lous patients and rheumatics,  
Sufferers from all blood poisons,  
These are purged of taint and weakness  
By the wondrous "Swift's Specific."

# CONTAGIOUS BLOOD POISON

is the constitutional blood disease which has for several centuries past been infesting mankind with its annoying features and destructive results, and is now the great bane of the human race. This is the worst of all blood contagion, as the horrible poison is transmitted from one generation to the next, and even the third and fourth. We do not honestly believe that the terrible scourge has ever been cured and thoroughly eradicated from the human body by any other remedy than Swift's Specific, and we further say that Swift's Specific has never been known to fail to make a permanent cure in any case when it has been taken before any of the vital organs had become so impaired as to render a cure impossible. Our book on contagious blood poison gives full particulars—mailed free.
